

# Referral Appreciation Program

*Rewarding You for Referring Us*

**Mentioning our company to your friends and family is the greatest compliment we could receive. Thank you!**

*Our Referral Appreciation Program is a permanent benefit available to Ballard Natural Gas clients who refer business to our company. A Referral indicates a client who signs a contract to install a major piece of equipment in their home or rental property. The referral **must** name the party who referred them for it to qualify for any of the rewards mentioned in this booklet. The value quoted includes the installation or maintenance service when appropriate. All rewards are available throughout the year - however any reward that requires installation or maintenance must be scheduled between March 1<sup>st</sup> and August 31<sup>st</sup>.*

**When you refer your friends and family to us and they mention your name - you can choose from the following:**

### **A \$50 Gift Card**

**Your choice of Gift Card from the most popular vendors:**

- » **Amazon.com**
- » **iTunes**

- » **Average home accumulates 40 lbs of dust per year**
- » **New Heating and Cooling equipment can stir up dust in existing duct systems**
- » **Improves system efficiency and life span**
- » **Decreases the frequency in which you clean and replace your filtration system**

**When you refer your friends and family to us and they mention your name - you can choose from the following:**

## CO Detector

- » Audible alarm with exclusive voice notification system includes 11 pre-programmed locations
- » Photoelectric technology helps reduce nuisance alarms, particularly around kitchens
- » Studies have shown voice warnings can be more effective for children in times of chaos

## Surge Protector

- » Designed to dissipate the damaging effects of momentary voltage spikes
- » Also prevents other transient power surges including impulses from lightning
- » Designed specifically for HVAC
- » Protects some of the most expensive operating equipment in your home

## Premium Air Duct Cleaning

- » The heating system is pressurized with suction from the truck
- » All debris is blown and swept toward the truck and collected in a sealed bin
- » Nothing is blown out the other registers
- » Our duct cleaning always includes cleaning of the warm and cold air sides of the duct work
- » Furnace gets cleaned out with compressed air
- » Filtering and blower systems are thoroughly cleaned

## Natural Disaster Valve

- » Installed at the meter into the gas line supplying your home
- » Designed to shut off the supply of gas in the event of a natural disaster
- » Up to 50% of fires caused by natural disasters, like earthquakes, are caused by gas leaks in the home
- » Completely resettable by the homeowner and designed to last the life of your home
- » Some insurance providers offer rate reductions when this unit has been installed
